The U.S. Army Medical Command is accredited by the ACCME to provide continuing medical education for physicians.

Pain Webinar

A Multiservice and VA
Collaboration

Global Pain Education

What is Pain-Webinar?

Pain-Webinar is an innovative program leveraging video conferencing technology to allow specialists to provide expert advice, education and support to primary care providers and their staff in rural and remote settings. This program meets the Secretary of Defense's directive to "implement more cost-effective and efficient methods to train, plan, collaborate and disseminate information."

What are the benefits to YOU, the providers who participate?

Through participation in *PAIN* –Webinar, providers will gain knowledge and confidence in managing patients with chronic, complex conditions. Providers will have regular and reliable access to specialists who will provide support and specific recommendations for their patients. This model has been shown to improve professional satisfaction and to reduce feelings of isolation. Additionally, one CME is provided to participants per month.
